

Food For Friends Weekend Program Information

The Food For Friends Weekend Program provides a weekend supply of nutritious food for children when school lunch and breakfast are unavailable on a weekend or school holiday. Each food bag contains 2 breakfasts, 2 lunches, 2 snacks, 1 can of vegetables and 1 can of fruit. All food is non-perishable and provided to children free of charge. It is our hope that these resources will support the health, behavior, and achievement of every student that participates.

The program is run completely by the Food for Friends Food Shelf created and operated by Mora High School students. Mora Elementary School social workers are on hand to help families enroll in the program and answer any questions. The program is primarily funded through generous donations from generous members of our community. If you would like to become involved in this program or make a donation, please contact Karen Felger at the Mora Alternative Learning Center, 320-679-6220.

Though the program is intended to help those children whose families find it difficult to have enough food for the entire month, **all children are eligible for this program.**

To sign up for this program, please complete the attached form and return to school. Your school social worker will contact you to confirm your student's enrollment in the program. Once your child is signed up, they will receive bags of food each week until they leave school or until you no longer wish to participate.

Other food support for families is also available through the Food For Friends Food Shelf. Please contact your school social worker to discuss your needs and to receive additional food.

We encourage you to take advantage of this program for your family and your children. Questions or Concerns? Please contact your school social worker.
